Case Study: Candidate

"Quick result from Hainton. I was made redundant in July and was offered a new role in August!

Throughout the recruitment process I received quick feedback and there was no hanging around waiting for phone calls.

In particular, they had some extremely good advice and guidance regarding the interview process and technical tests I had to complete."

Case Study: Hiring Company

"Hainton have helped us with our recruitment at Audacia for well over a year.

They have consistently sent us excellent applicants, and the time and care they put into searching for the best candidate for a role, as well as preparing interviewees for the recruitment process, really shines through.

I would definitely recommend Hainton to any job hunter, or to a tech company looking to work with a new recruitment partner."

Richard Brown

Head of Engineering at Audacia
January 2021
